¹ “Corporate governance statement” is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council’s recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity’s corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes “OR” at the end of the selection and you delete the other options, you can also, if you wish, delete the “OR” at the end of the selection.

- (b) disclose, in relation to each reporting period, whether such a review has taken place.*

Compliance with the Recommendation: Yes

The Board as a whole determines the Company's "risk profile" with oversight of the Audit and Risk Committee. It has overall responsibility for establishing, overseeing and approving the Company's risk management framework, strategy and policies, internal compliance and internal control.

The responsibility for undertaking and assessing risk management and internal control effectiveness is delegated to management. A regular review of specific strategic risks are undertaken with accountable Executive team risk owners that includes consideration of forward looking changes in the day to day operations as well as seeking to identify and address any new and emerging risks and/or potential future changes to the risk profile. Management is required to assess risk management and associated internal compliance and control procedures and report back to the Audit and Risk Committee on at least a quarterly basis.

The Audit and Risk Committee reviews management's assessment of the effectiveness of its risk management and internal compliance and control systems at least bi-annually and reports back to the board (and management) with any recommendations after each review and to satisfy itself that the risk management framework:

- (a) continues to be sound;
- (b) ensures that the Company is operating with due regard to the risk appetite as set by the Board;
- (c) deals adequately with contemporary and emerging risks such as conduct risk, digital disruption, cyber-security, privacy and data breaches, sustainability and climate change; and
- (d) discloses if it has any material exposure to environmental or social risks and, if it does, how it manages, or intends to manage, those risks.

A copy of the Company's Risk Management Policy is available in the Corporate Governance section of the Company's website.
