

WA MINING CLUB LUNCHEON

Thank you to everyone who attended our recent event with the WA Mining Club. It was a pleasure to see so many familiar faces and to welcome new connections into the fold.

A special thanks to our Independent Non-Executive Chairman, Simon Lill, for his presentation, and to our panelists: Courtney Morgan-Evans, Neil Foster, Peter Holmes and Glenn Jardine – for their valuable insights and engaging discussions.

PILBARA PRIDE FESTIVAL

Members from our site and Community and Social Performance teams, and Diversity and Inclusion Working Group attended a 'Dinner Under the Stars' to celebrate the 2024 Pilbara Pride Festival. The Pilbara Pride Festival is a weeklong annual event that aims to create awareness and visibility and celebrates Pride and the LGBTIQ+ community in the wider Pilbara region.

De Grey is dedicated to fostering diversity, equity, and inclusion in our workplace. The Working Group is responsible for creating and executing strategies, initiatives, and programs to advance these values.

We would like to thank Port Hedland Lesbians, Allies and Gays Society (PHLAGS+) for hosting an incredible week of events aimed at increasing visibility, community awareness, mentoring, education, support and providing safe spaces in Port Hedland and the Pilbara region 🌈

PILBARA SUMMIT 2024

Members from our Perth team participated in the Pilbara 2024 Summit in Karratha across, an annual event that brings together industry leaders, government officials, investors, and community representatives to discuss the region's opportunities and challenges. Managing Director, Glenn Jardine's presentation "A strategic Pilbara development" was well received, sparking interest in local procurement opportunities and generating excitement about economic diversification in the Pilbara.

A big thank you to those who visited our booth. It was great to connect with community members, fellow industry and government representatives, and continue to share our story.

YOUTH INVOLVEMENT COUNCIL SOCIAL INVESTMENT OUTCOMES

This year, De Grey partnered with the Youth Involvement Council (YIC), supporting the local community through the delivery of the mindfulness program.

The Deadly Hearts Program is demonstrating strong engagement and high satisfaction levels among participants in Term 1:

- Total Young Participants: **141**
- Total Attendances: **991**
- Total Young People Transported: **711**
- Satisfaction Level: **89%** high satisfaction reported by participants

ENVIRONMENT

World Environment Day was on the 5th of June and is the largest global platform for environmental outreach, encouraging awareness and protection of the environment. This year, the theme was 'Generation Restoration', with a focus on land restoration, desertification, and drought resilience "Our land. Our future. We are #GenerationRestoration".

De Grey celebrated on-site with a visit from Rick Tonello, the Chief Astronomer at the Gravity Discovery Centre and Observatory. Site-based crews enjoyed an educational laser tour of the night sky and several hours of stargazing through a setup of three telescopes. Rick also visited Port Hedland Primary and High schools, teaching the students about the galaxy and viewing the sun through a specialized solar telescope.

The Perth office celebrated with a visit from Animal Ark, a wildlife education and training center who also work with wildlife rescue groups in the Perth region. Kurt and Shannon presented an educational and interactive session on mammals and reptiles, encouraging staff to learn about our local wildlife in the Perth and Pilbara regions, whilst also having a chance to get up close and meet some of our most shy and elusive animals.

The activities encouraged staff to learn about and appreciate the natural world around us and the unique surroundings that we have on site.

PORT HEDLAND SCHOOLS ASTRONOMER VISIT

In celebration of World Environment Day, De Grey flew an Astronomer, Rick Tonello from Gravity Discovery Centre and Observatory, to conduct sessions at both Wingina and Withnell sites. As part of our social investment approach, De Grey provided local Port Hedland schools the opportunity for an astronomy incursion.

The incursion included a class presentation tailored to the year group followed by a solar viewing through a dedicated Solar Telescope. The incursion was a huge success and we thank everyone involved for making it possible.
